

**EscapeRoots Marketing  
Presentation**  
Honokaa, HI

This project consisted of providing a master plan to the clients to show to potential investors for funding.

The program consists of a camp ground, mini-golf, an amphitheatre, organic gardens and a small farm with a petting zoo. A cafe, with a retail shop and art gallery, will serve food grown on site.

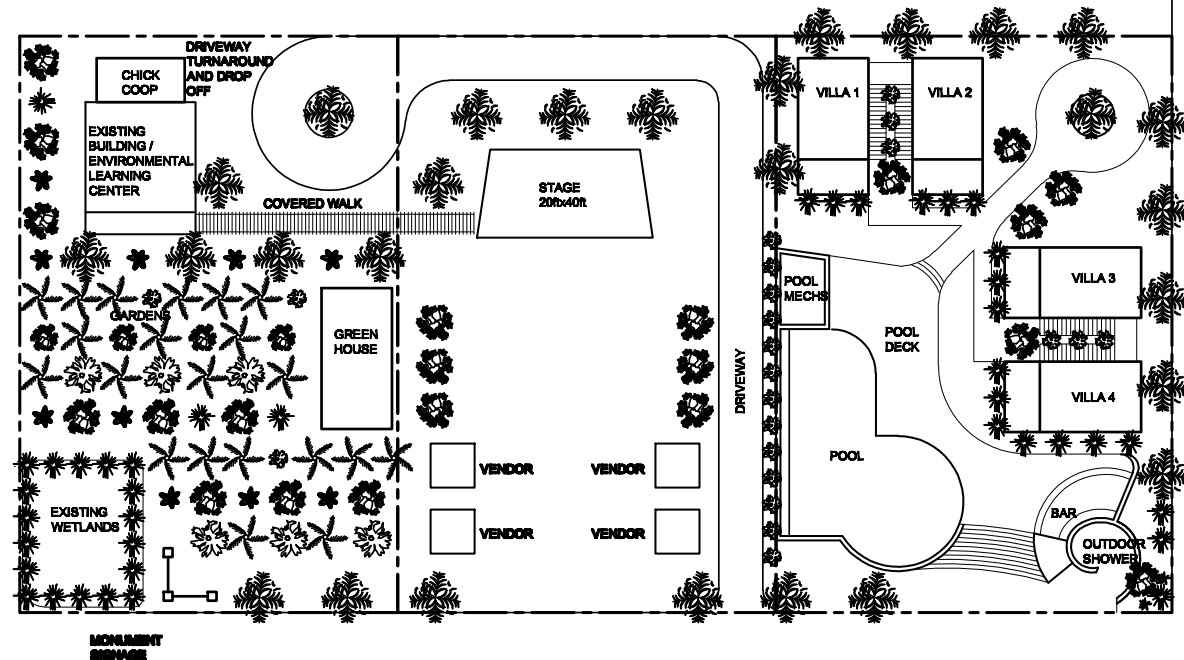

## Armonia Costa Rica

Dominical, Costa Rica

The client for this master planning exercise purchased an existing hotel along with the adjacent property.

The hotel would have basic finish up-grades as well as the incorporation of a roof top yoga studio with refreshment bar and lounge.

The adjacent property would consist of three zones. The first would be an extension of the existing hotel with private villas and a pool overlooking the beach. The center of the property would consist of an entertainment area, featuring a stage, vendors and open lawn. The third zone would be a preserved wetland and agricultural field. The back portion of this zone has an existing house that will be converted to an office.
